

VS2200

Mission/Avionics video & data Recorder/Server

HIGH DEFINITION VIDEO

ENERTEC™

Applications

Multi-sensor ISR imagery and data collection on manned and unmanned platforms, for:

- law enforcement;
- coastal and border surveillance.

Aircrew training, mission debriefing.

Key Features

- Synchronous recording of:
 - ✓ Up to eight Full Motion Video & audio sources, PAL/NTSC, VESA (1280x1024), High Definition up to 1080p, SMPTE-292M (HD-SDI)
 - ✓ Data bus inputs: ARINC 429 HS, up to eight MIL-STD-1553B (MT/RT)
- Metadata support (STANAG 4609)
- Net-centric capable: mission data upload, file server
- In-flight replay while recording
- Removable solid-state media, remote media option available, optional hard disk technology for TB capacities
- Qualified to DO-160, MIL-STD-704, MIL-STD-461, MIL-STD-810
- Configured to program-specific requirements
