

ENERTEC™ XS1410

Rugged Expandable Embedded Processor

Applications

C2/C4ISR embedded subsystems

- Tactical Computer
- Maintenance Computer
- Mission Computer
- ...

for operation on board manned and unmanned
ground, air and sea vehicles

Key Features

- ARM 1.2 GHz dual core CPU
- GigE, USB 2.0
- 512 GB removable storage capacity
- I/O Expansion slots available
- Compact and lightweight
- Highly flexible and reliable
- Qualified to DO-160, MIL-STD-704,
MIL-STD-461, MIL-STD, 810
- SWaP optimized
